Subject: Microsoft case

Dear Sir or Madam at the Justice Dept.:

Microsoft has been a blessing bestowed to America, because that company's technology gave this country a great deal of productivity. The technological advances have been great and have been made available to everyone at a very low cost.

I think that the American people would be well served by ending the Clinton-era Anti-trust law abuses.

Microsoft is good to our economy. These law suits are only good to the lawyers.
